CAREER PROFILE

Passionate UI/ UX Designer with a strong interest in creating user-centered digital experiences. I have a growing understanding of user research, wireframing, and prototyping using Figma and I aim to design intuitive and visually engaging interfaces that enhance overall user experience. By applying design thinking principles and my technical knowledge of HTML, CSS, and JavaScript, I focus on creating practical and developer-friendly solutions.

WORK EXPERIENCE

UI/UX Intern

02/2026 – 05//2026

Febno Technologies

- Designed intuitive and visually consistent user interfaces for web and mobile applications.
- Conducted user research and analyzed usability challenges to improve interaction flow.
- Created structured information architecture and wireframes before final UI design.
- Built interactive prototypes to validate design decisions.
- Contributed to responsive and mobile-first design strategies

PROJECTS

FitNest – Fitness Mobile Application | Figma Project

- Designed a mobile application focused on home workouts and healthy routines.
- Created onboarding, login/ signup, workout programs and progress tracking screens.
- Developed workout cards, exercise detail pages and video-based UI screens.
- Improved user motivation through simple navigation and clean visual hierarchy

BrightFuture – Education Website | Figma Project

- Designed a modern education website to help students explore courses and apply easily.
- Structured information architecture including Home, Courses, Admissions and Application pages.
- Designed hero sections, course cards, and call-to-action components.
- Conducted basic user research to improve usability and accessibility.
- Ensured responsive layouts for desktop and mobile devices

Peppino Pizza – Food Delivery Mobile App | Figma Project

- Designed a mobile application for ordering food online with a smooth and user-friendly experience.
- Created complete user flow including onboarding, login/signup, home, product listing, cart, and checkout process.
- Designed interactive UI screens such as food categories, product details, add-to-cart, and order confirmation.
- Focused on easy navigation, quick ordering flow, and clear call-to-action buttons to improve usability.
- Developed cart management and payment flow UI for seamless order completion.
- Used a modern visual style with strong color contrast and food-focused imagery to enhance user engagement.

Re-Store – Repair & Reuse Web Application | Figma Project

- Designed a web application that promotes repairing, reusing, and sustainable living by helping users fix everyday items.
- Created key flows including onboarding, login/signup, dashboard, scan & discover, and repair guides.
- Designed step-by-step repair guide screens with images and clear instructions to improve usability for beginners.
- Built features like community interaction, contribution system, and reward/badge system to increase user engagement.
- Developed scan feature UI to help users identify items and find relevant repair solutions quickly.
- Focused on intuitive navigation, clean layout, and eco-friendly design theme for better user

EDUCATION

Skill Diploma in UI/UX Designing

Techno Dot Academy of R&D&I

09/2025 – 05/2026

BCA (Bachelor of Computer Application)

University of Calicut

2022 – 2025

SKILLS

TECHNICAL SKILL

- UI/UX Design & User Research
- Wireframing & Prototyping
- Figma, Adobe XD, Photoshop
- Information Architecture
- Responsive Web Design
- HTML5, CSS3, JavaScript,Bootstrap

SOFT SKILL

- Creativity & Design Thinking
- Attention to Detail
- Time Management
- Self-Motivation & Discipline
- Teamwork & Positive Attitude
